## **ABOUT THE CLINICAL MENTAL HEALTH COUNSELING PROGRAM**

The Touro University Master of Science in Clinical Mental Health Counseling (CMHC) Program provides a supportive, learner-centered environment for academic rigor and integrity driven by scholarship and enhanced practice. One goal of the program is to strive for excellence in faculty and graduates who contribute to the profession and the promotion of wellness and mental health across a wide variety of communities.

## **MISSION AND PROGRAM OUTCOMES**

The mission of the Clinical Mental Health Counseling (CMHC) Program of Touro University is to guide our students to develop into ethical and competent clinical mental health counselors, who strive to provide individual, group, family and marriage counseling services that empower change in client mental health, wellness, education, and career goals. The program integrates theoretical knowledge with practical counseling experiences that promote the development of the professional counseling skills needed to practice successfully in the field. Graduates of the program fully identify with the clinical mental health counseling profession and are well-prepared to function as mental health professionals in multiple roles including treatment, assessment, advocacy, and consultative modalities with populations and across a wide range of mental health concerns. The goal is to strive for excellence in faculty and graduates who contribute to the counseling profession and the promotion of wellness and mental health.

## **CURRICULUM DESIGN**

The Touro University Clinical Mental Health Counselor Program is committed to educating clinicians to take on evidence-based, client-centered practice that promotes the basic tenets of wellness, mental health, and prevention. The program's curriculum is based upon educational standards set forth by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP), which are supported by the American Counseling Association (ACA) and American Mental Health Counselors Association (AMHCA) and are reflected in the educational requirements for licensure in New York State. The CMHC program focuses on training ethical professionals to contribute to the psychological, emotional, behavioral, and general well-being of the clients and communities with which they work. We accomplish this by educating students with a strong foundation of evidence-based knowledge that reflects the current and projected needs of the counseling profession.

The program of study consists of 60 semester hours of required coursework in the areas of assessment, diagnosis, research, prevention, intervention, report writing, counseling and consultation and multicultural issues. As part of their training, students in the CMHC program are required to participate in fieldwork and related assignments. The program offers a two-year track and a three-year track of full-time study. Some summer-session coursework is required.

The curriculum is sequenced with knowledge-based coursework and knowledge-based examinations to be completed prior to the internship stages and the skill-based learning to be completed through practices throughout the program. Students may not register for courses out of sequence without written approval from the Program Director, Chair, or Dean. Our CMHC program is New York State accredited as per the Office of the Professions of the New York State Department of Education. Programmatic goals were developed and are aligned with Council for Accreditation of Counseling and Related Educational Program (CACREP) guidelines. The program completed the CACREP self-study in November 2021, hosted the CACREP site visit in February 2023, received initial accreditation in August 2023, with a progress report due in November 2024. In March 2025, the program received Full Accreditation, acknowledged from 7/8/2021 to 10/31/2031.

The program provides classroom and field-based experiences that prepare future mental health counselors to be ready and able to meet the challenges of achieving state-mandated standards. The program requires a

100-hour practicum experience (MHN 702) followed by completion of a 600-hour internship (MHN 770 and MHN 771).

## PLANS OF STUDY

The M.S. Program in Clinical Mental Health Counseling (CMHC) offers two study tracks:

- Fall Admission 2-Year Study Sequence (2-year, 5-semester course of study) [Please note that this sequence is intense and is not recommended for students who expect to work, especially in the second year when they are completing classes as well as a 600-hour internship.]
- Fall Admission 3-Year Study Sequence (3-year, 7 or 8-semester course of study)

Completion of 19 courses (60 credits) and a documented seminar in Child Abuse Identification and Reporting are required in order to be awarded the M.S. degree.

## CMHC FACULTY & STAFF (2023-2024)

Faye Walkenfeld, Ph.D.  
Chair and Associate Professor

## PROGRAM LEARNING OBJECTIVES

**Touro University's Clinical Mental Health Counseling (CMHC) program objectives are to prepare Counselors-in-Training (CITs) to:**

1. present a strong professional counseling identity that is grounded in participation and contribution to the clinical mental health field.
2. promote the wellness and mental health of clients through the use of evidence-based, ethical counseling skills and techniques.
3. function as clinical mental health professionals in multiple roles including treatment, assessment and consultative modalities addressing a wide range of mental health concerns.
4. engage in a minimum of three semesters of supervised clinical experiences designed to effectively work with a wide range of clients.
5. demonstrate knowledge in counseling theory, helping relationships, assessment, trauma/crisis, substance abuse, group work, career development, human development, respectful individualized care, research and program evaluation, and the legal and ethical foundation of the counseling profession.
6. meet the academic components required by the New York State Education Department, Office of the Professions to be eligible to apply for the limited permit, leading to clinical licensure.
7. prepare CITs for successful outcomes on the National Clinical Mental Health Counselor Examination (NCMHCE), required to become employable as a Licensed Mental Health Counselor (LMHC) in the State of New York.
8. educate CITs in accordance with the NYS Office of Addiction Services and Supports (OASAS) standards, with the option to apply for their Credentialed Alcoholism and Substance Abuse Counselor in Training (CASAC-T) credential.

## ACADEMIC QUALITY INDICATORS

### 1. Learning Community

## **4. Student Success**

### **Key Progress Indicators**

The Clinical Mental Health Counseling (CMHC) Program faculty continue to track the same 10 Key Performance Indicators (KPIs), tracked to each of the 8 Core and the CMHC Specialty standards set forth by CACREP that were tracked in 2023-2024. The faculty have identified CIT Performance data points to measure each KPI (as seen in the discussion below) that attempts to capture performance at various points in the CIT's course of study.

**Table 04a: Key Performance Indicators**

|   |
|---|
| <b>CACREP Common Core F1: Professional Orientation and Ethical Practice</b>   |
| <b>KPI 1:</b> CIT will articulate the interrelationship between their personal identity and their professional Counselor identity, and how this impacts their CMHC practice.  |
| <b>KPI 2:</b> CIT demonstrates an understanding of the legal and ethical standards of the professional Clinical Mental Health counselor and their application to professional practice.   |
| <b>CACREP Common Core F2: Social and Cultural Diversity</b>   |
| <b>KPI 3:</b> CIT will demonstrate understanding of theories and models of multicultural, pluralistic counseling and display competent application to practice.   |
| <b>CACREP Common Core F3: Human Growth and Development</b>  |
| <b>KPI 4:</b> CIT will demonstrate knowledge of systemic and environmental factors that affect human development, functioning, and behavior across the lifespan.  |
| <b>CACREP Common Core F4: Career Development</b>  |
| <b>KPI 5:</b> CIT will identify and describe approaches to the assessment of abilities, interests, values, personality, and other factors that contribute to career development, and their implication to the counseling process. |
| <b>CACREP Common Core F5: Counseling and Helping Relationships</b>  |
| <b>KPI 6:</b> CIT will demonstrate knowledge and practical application of theoretically based counseling skills and techniques with individuals and groups  |
| <b>CACREP Common Core F6: Group Counseling &amp; Group Work</b>   |
| <b>KPI 7:</b> CIT will identify and apply ethical and culturally relevant strategies for designing and facilitating groups, and how therapeutic factors contribute to group effectiveness.  |
| <b>CACREP Common Core F7: Assessment and Testing</b>  |
| <b>KPI 8:</b> CIT will identify and apply ethical and culturally relevant strategies for selecting, administering, and interpreting assessments and test results to the counseling process.                                       |
| <b>CACREP Common Core F8: Research and Program Evaluation</b>   |
| <b>KPI 9:</b> CIT will articulate the importance of research in advancing the counseling profession, including how to critique and synthesize research to inform counseling practice  |
| <b>CACREP Common Specialty: CMHC</b>  |
| <b>KPI 10:</b> CIT will demonstrate ability to utilize core clinical principles, intake interviewing, and assessment, including the DSM-5 and MSE, to inform treatment planning.  |

[Return to Table of Contents](#)

The table below outlines how the CMHC program interprets the identified data points to evaluate the Key Performance Indicators (KPIs). Throughout this Annual Self-Evaluation, the program uses the benchmark of “Meeting” or “Exceeding” expectations. This is equivalent to a benchmark of 85% or higher.

**Table 04b: Assessment Rating Scale and Interpretation**

| Rating Label               | Numeric Value | Interpretation             |
|----------------------------|---------------|----------------------------|
| Exceeding expectations     | 5             | Meets or exceeds benchmark |
| Meeting expectations       | 4             | Meets or exceeds benchmark |
| Approaching expectations   | 3             | Does not meet benchmark    |
| Below expectations         | 2             | Does not meet benchmark    |
| Does not meet expectations | 1             | Does not meet benchmark    |

**Table 04c: Assessment Benchmarks Used to Evaluate CMHC Program KPIs**

| Assessment Measure | (5) Exceeding Expectations | (4) Meeting Expectations | (3) Approaching Expectations | (2) Below Expectations | (1) Does Not Meet Expectations |
|--------------------|----------------------------|--------------------------|------------------------------|------------------------|--------------------------------|
| Assignment Rubrics | 95%+                       | 85%-94%                  | 80%-84%                      | 75%-79%                | 75%>                           |

| <b>KPI 9</b>  | 91%   | 100%   |
| <b>KPI 10</b> | 98%   | 98%  |

### Professional Dispositions

CIT disposition was monitored during the 2023-2024 academic year using the nationally recognized Counselor Competencies Scale- Revised (CCS-R). This evaluation reviews CIT counseling skills (part 1) and disposition (part 2). For the evaluation of CIT Disposition, only Part 2 is considered.

CIT disposition is measured across their academic experience by multiple reviewers (see the table below for an outline of how Disposition is captured, by whom, and when in the academic plan of study).

The Assessment Committee was pleased to note that CITs continue to receive strong ratings from site supervisors in both counseling skills and professional disposition. As expected, scores increased from the mid-program evaluation during the Practicum experience to the end-of-program assessment completed at the conclusion of Internship II, indicating a positive developmental trend as CITs progress through their fieldwork. These findings suggest that CITs enter practicum with a solid foundation and continue to strengthen their skills and professional competencies throughout the internship sequence.

**Table 05a: CCS-R Part 2: Professional Disposition Assessment**

| Program Level  | CCS-R Part 2 Disposition Activity | Assessed in (course #) | When                                     |
|----------------|-----------------------------------|------------------------|--|
| Entry Level    | CIT Self-assessment               | MNHN 600               | Mid-Fall semester 1 <sup>st</sup> year   |
| Entry Level    | Assessment by Faculty             | MNHN 630               | End-Fall semester 1 <sup>st</sup> year   |

| Exit Level     | CIT Self-assessment               | MNHN 771               | End-Spring semester final year                                    |

**Table 05b: DISPOSITION DATA: Site Supervisor evaluations of CIT performance, showing the percentage of CITs “Meeting” or “Exceeding” expectations by academic year.**

|                            | 2021-2022 | 2022-2023 | 2023-2024 |
|----------------------------|-----------|-----------|-----------|
| Mid-Program: Practicum     | 95%       | 98%       | 94%       |
| End Program: Internship II | 93%       | 99%       | 99%       |

## **INFORMED BY PROGRAM EVALUATION**

Across all KPI domains, Counselors-in-Training (CITs) met or exceeded the established benchmark of 85% for the 2023–2024 academic year. A closer examination of both the “Knowledge” and “Skills” KPI subdomains, along with individual KPI data points, indicates progress across several key performance areas. Notably, KPI 3 demonstrated a strong upward trend, with CIT performance increasing from 90% to 100% meeting or exceeding benchmark on the Comprehensive Examination I data point. Gains were also observed within KPI 4, where performance in the “Knowledge” subdomain increased from 88% to 93%.

In response to goals set in the 2022-2023 program evaluation, additional data points were added to KPI 5, KPI 7, and KPI 8 during the 2023-2024 academic year to allow for a more comprehensive evaluation of CIT performance. Results across these KPIs reflected stable outcomes for KPI 5 and KPI 8, and improved performance for KPI 7. The consistency of outcomes despite the addition of new data points suggests stability in CIT performance and supports the value of these expanded measures in capturing a clearer and more reliable assessment of CIT outcomes.

Further review of KPI subdomains identified targeted areas for refinement. Performance in the “Skills” subdomain of KPI 2 was slightly below benchmark at 83%, representing a modest decline from the prior year. The Committee noted that this “Skills” outcome is currently based on a single data point drawn from early in the CITs’ plan of study. To a more developmentally focused evaluation of CIT skill acquisition, the Committee recommends adding a second, later-stage skills-based assessment. The course in which the current measure is embedded is also undergoing modification, with improved performance anticipated in the 2024–2025 academic year.

Overall, CITs demonstrated strong performance on Comprehensive Examination I (COMPS I), achieving a 96% overall pass rate. Of the five assessed content domains, CITs met benchmark in four areas. Performance in the “Developmental” content domain was lower at 81%, reflecting a decline from the previous academic year. A review of student responses suggests that this outcome was primarily related to incomplete responses to multi-part questions rather than gaps in content knowledge. For the 2024–2025 academic year, the Committee has recommended revising the question format to more clearly delineate each required component. Subsequent data will be reviewed to evaluate the impact of this change.

The 2023–2024 academic year marked the second administration of the program-developed Comprehensive Exam II (COMPS II) which aligns with the New York State licensing examination, the National Clinical Mental Health Counseling Examination (NCMHCE). CITs again met the established benchmark for COMPS II, with 93% of CITs passing on their first attempt and 100% of retakers passing on their second attempt. Overall, the cohort’s average aggregate score exceeded the national required passing score by 13%. Across the NCMHCE aligned subcategories, our of five areas met benchmark, with 90% to 100% of CITs meeting expectations. Performance in the “Core Counseling Attributes” subcategory was lower, with 67%

meeting benchmark. At this time, the Committee will continue to monitor this area across future administrations before determining whether targeted curricular or programmatic adjustments are indicated.

## Closing the Loop

**Table 06a: 2022-2023 Observations and 2023-2024 Outcomes**

| 2022-2023 Observations  | 2023-2024 Outcomes   |
|---|--|
| Improve technology to monitor breadth of program assessment data points.                                  | Program continues to evaluate technological options to support program management and growth. The faculty have been working closely to improve use of Tevera and evaluating Simulation software. This continued as a goal for upcoming academic years.             |
| Need to add/consider “knowledge” or “skill” domain measurements of KPIs 5 and 7.                          | Achieved: Expanded Data points were added to KPI 5, KPI 7, and KPI 8.  |
| Need to add/consider “knowledge” domain measure for KPI 4   | Achieved: The Assessment Committee reviewed and felt that 2 “Knowledge” data points were sufficient. Suggested adding an additional  |
| Need to add/consider “skill” domain measure for KPI 8   | Achieved: Skill measure was added to KPI 8 and assed this 2023-2024 review cycle   |
| Consider evaluations of PLOs (per Site Supervisor feedback)   | Achieved: The CMHC Advisory Board and Faculty reviewed the feedback from the Site Supervisors in 2023 and determined that the PLOs were in line with the program goals and intended outcomes. No Changes made.   |
| Considerations of how to measure the identified domain of “professionalism” across various PLOs           | Achieved: The Program added additional Professionalism activities and opportunities across the program – through an increase in Professional Development seminars, inclusion of CITs in conferences as attendee and presenters, and through service opportunities. |
| Revision of Site Supervision training to address more specific counselor concepts and model interventions | Achieved: New training video has been recorded and made available to all site supervisors. It includes a mid-video check-in to ensure Site Supervisor participation.   |

**Table 06b: Recommended Interventions for 2024-2025: Course level**

| Course   | 2023-2024 Observed Concerns   | 2024-2025 Modification Recommendations   |
|----------|---|--|
| MNHN 640 | Ethics Final (skills) data point at 83% - below benchmark             | Consider including an additional skills data point from the mod or end of the Plan of study. |
| COMPS II | Lower than expected performance in the “Core Counseling” Domain (67%) | Assessment committee to evaluate if any patterns emerge to consider in curriculum review     |
| COMPS I  | Q1 – Development did not meet 85% benchmark (81%)                     | Reformatte question for the 2024-2025 COMPS I and then re-evaluate.                          |

**Table 06c: Recommended Interventions for 2024-2025: Program level**

| 2023-2024 Observations  | Action Plan  | Goal      | Measurement  |
|---|--|-----------|--|
| Become a Continuing Education (CE) Provider for LMHCs in NYS                                    | Complete the application process to become a CE provider   | 2024-2025 | Approval from NYS to provide CE credits              |
| Establish a Chi Sigma Iota (CSI) honor society chapter at Touro                                 | Designate a faculty person to begin the applications process   | 2025-2026 | An approved CSI Chapter at Touro                     |
| Improve CIT knowledge of Legal and Ethical standards as they apply to the Counseling Profession | Host either a panel or create a video on NYS specific laws relevant to the Mental Health Counselor                 | 2024-2025 | Evidence of panel and/or video available for CIT use |
| Alumni survey does not provide information on treatment service modality (telehealth, etc.)     | Add question to alumni survey regarding primary form of treatment environment (telehealth, etc.)                   | 2025-2026 | Update survey  |
| Increase opportunities to observe and practice clinical skills                                  | Explore other technologies that would of use (suggest 2-3 other options to improve clinical skills & observations) | 2025-2026 | Evidence of use of new technologies                  |
| Increase feedback to sites and site supervisors   | Continued goal: Fieldwork coordinator to develop a plan and approach to providing feedback                         | 2025-2026 | Developed protocol                                   |
